DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

This farm is located east of Maugansville Road just south of the village of Maugansville in Washington County, Maryland.

The house which rests on low fieldstone foundations, is situated on an area of level ground and faces south. The two story, three bay building is constructed of logs and sheathed with a veneer of bricks, all stretchers, which have been painted white. Extending to the north is a one and a half story wing covered with imitation brick siding, also painted white.

Windows appear to have been spaced evenly in the walls. Those of the main portion of the house have modern single pane, double hung sashes. They are held within narrow rounded frames topped with flat arches of brick. There is no evidence that the windows had shutters. In the wing, older six over six light sashes are used.

The main entrance is located in the center bay of the front elevation. Above the door is a narrow transom. The entrance is sheltered by a one bay gable roofed porch.

The roof is sheathed with sheet metal and terminates with barge boards set directly against the end walls. Beneath the eaves boxing runs a course of molding. Brick chimneys are located inside each gable end.

Southeast of the house is a frame bank barn resting on fieldstone foundations. Granaries at the rear of the barn are walled with brick. Also present are numerous sheds and out-buildings.

The date 1847 is said to be inscribed in a stone at the north end of the barn.

The farm buildings appear to be in good to excellent condition and stand on a tract containing 57.66 acres.
